Monetization professional with over 5 years of experience across F2P games, spanning monetization strategy, LiveOps, game economy optimisation, and player lifecycle management. Experienced in developing pricing strategies, player segmentation, and data-driven experiments to improve revenue, payer conversion and retention. Proven track record of delivering measurable commercial improvements, including LTV growth, DTC optimisation, and increased payer engagement.

KEY ACHIEVEMENTS

- Improved DTC payment conversion from 18% to 55%
- Collaborated with Production and Marketing to redesign seasonal LiveOps strategy for Supremacy: World War 3, improving retention and season pass conversion
- Improved dormant payer conversion through targeted offers, sales and events, improving returning dormant payers by 3%
- +5% first-time payer conversion through Starter Packs and leveraged conversion offers

SKILLS

Monetization Strategy

- IAP Pricing
- Offer Segmentation
- DTC
- Payer Lifecycle

LiveOps

- Event Optimisation
- LiveOps Calendar Management
- Currency Sinks

Analytics

- Cohort Analysis
- LTV
- First-Time Payer Conversion
- Dormant Payer Reactivation

Experimentation

- A/B test design
- Experiment Performance Evaluation

Tooling

- Unity
- Advanced Excel
- SQL

Leadership

- Cross-Functional Collaboration
- Mentoring

EXPERIENCE

Gram Games

Monetization Manager — Jun 2026 – Nov 2026

- Managed LiveOps scheduling and event coordination for Merge Dragons, supporting the execution and performance monitoring of recurring events.
- Analysed LiveOps funnels and player behaviour to identify progression bottlenecks and opportunities to improve event participation and premium currency spending.
- Developed data-informed optimisation proposals for LiveOps features, evaluating potential changes to rewards, pricing, and player conversion.
- Collaborated with cross-functional stakeholders on LiveOps and community engagement initiatives.

Twin Harbour Interactive

Principal Monetization Manager — Jun 2025 – Jun 2026

- Owned franchise monetization strategies across two F2P titles, achieving 15% user LTV uplift.
- Directed monetization priorities across the franchise, aligning pricing, LiveOps strategy, and game economy decisions with commercial and player-retention objectives.
- Built launch monetization plan for Warhammer 40K: Supremacy (Base IAPs, starter pack strategy, premium account and early webstore integration).
- Mentored fellow Monetization Managers and supported the LiveOps team through a company merger, facilitating knowledge sharing and continuity during the transition.

Twin Harbour Interactive (formerly Dorado Games)

Monetization Manager — Jun 2023 – Jun 2025

- Designed and deployed a 4×4 player segmentation matrix based on account age and LTV, supporting targeted offers, DTC optimisation, and subscription upsells.
- Introduced a LiveOps Calendar to Supremacy: World War 3, supporting player retention and pay conversion through dedicated events and exclusive IAPs.

Dorado Games

Community Manager — Jan 2021 – Jun 2023

- Managed the launch of alliance play, bringing together community initiatives in collaboration with moderators and alliance leaders.

Government of Malta

Executive — EU Policy and Legislation — Jan 2015 – Dec 2020

- Stakeholder management & negotiation; relevant for cross-team alignment.

EDUCATION

Bachelor of Science in Computing with Games Design and Development — St Martins Institute of Higher Education, 2022 – Present
Master of Arts in Diplomatic Studies — University of Malta, 2014
Bachelor of Arts (Hons) in International Relations — University of Malta, 2010 – 2013
